Evaluate a News Article with Natural Language Processing

This project requires you to build a web tool that allows users to run Natural Language Processing (NLP) on articles or blogs found on other websites.

Rubric

Your project will be evaluated by a Udacity code reviewer according to the project rubric. Please make sure to re-review the rubric for detailed project requirements prior to submission.

Submission

Once you've met all of the rubric requirements, you can submit your project as either a zip file or a Github repository link.
